1557.

Smyrna, April 16.

LETTERS of the 7th of March from Gomrom (the ancient Ormus) say, They have receiv'd Letters from Bengal with Advice that the Indians, to the Number of 50000, return'd in the Beginning of that Month before Goa, with a great Train of Artillery, which put the Siege into a greater Contention than ordinary, and the Garrison was extremely weaken'd, and the Guns they expected were not arrived. The Indians push'd the Siege with so much Vigour, that the Portugals were afraid lest the City should be taken; whereupon they desir'd the Victory, and being propos'd to Adgi Bouloujouk the Command of the Indians, he tax'd the Portugals at 3000000 for their Ransom; which however reduc'd at last to 300000, which the Indians accepted, they retir'd. The same Advices that of four Ships which the Dutch had fitted out to Sea, to cruise against the Pirate Angria, two of them were cast away.

NEW ENGLAND.

London, April 21. We hear from Savanna of the 9th ult., that the Rev. Mr. Whitefield has taken possession of a Track of Land containing 500 Acres, and has various Kinds of Soil in it, and a great deal of it very good: It is likewise stock'd with Cattle and Poultry of all Sorts, and the whole almost fenced. Thirty People are now at work upon the Orphan House, which is situate upon a high Bluff, with a fine Prospect before it. It is to be 60 Foot long and 40 wide, with a Yard and Garden before and behind. The Foundation of it is to be Brick, and sunk 10 Feet within and rais'd three Feet above the Ground, which is intended for a Kitchen, Cellar and Offices. The House is to be two Story, with a roof; the first 10, the second 9 Foot high. In the middle will be near 20 commodious Rooms. Behind will be a Still-house, and two small Houses, the one an Infirmary, the other for the Cotton Manufacture; which Mr. Whitefield intends to prosecute with all possible Expedition. He has call'd the Place *the House of Mercy*. Near 30 Children are now in his House at Savanna, who go to School five times of the Day, and the Remainder of it are employ'd in Works suitable to their different Ages, but chiefly in picking and carding Cotton, a good Quantity of which he has bought already, and has agreed to take all the Cotton, Hemp and Flax that shall be sent in the Colony this Year.

IRELAND.

London, June 5. The Ship mentioned in some of the Papers to be re-taken from the Spaniards coming from America, belongs to this Place, of which a Gentleman went Mate: When the Privateer took her, he carried the Master and four of the Men on board, and left the Mate with two Hands and 14 Spaniards on board the Prize; but on seeing the Man of War coming up they quitted her, and at their going told the Mate, that they would return on board and put them to Death, if they did not follow them; he, regardless of their Threats, put his Helm to Weather, hoisted his Colours, fired a Gun, and bore down to the Man of War, and gave him an Account of what had pass'd; who immediately pursu'd the Privateer, and forc'd her on Shore. The Spaniards were off the Master and four Men. The above account was written to the Owners here.

Dublin, June 10. Wednesday last a Proclamation was published by the Right Hon. the Lord Mayor, suppressing the Riots and Tumults that have lately happen'd in this City and Suburbs; promising a Reward of Twenty Pounds to any Person who shall first apprehend and convict (within the Space of one Month) any one of the said Rioters, and ten Pounds to every other Person so convicted.

There was another Proclamation published at the same Time for regulating the buying and selling of all Grain that is sold by Weight; as also the Affize of Bread, and the Markets; and that those who buy any

Corn, Meal, &c. on the Road before it comes to the Market, or any one that conceals or hides any Corn, &c. in any Place whatsoever, or any Baker who sells Wheaten Bread for Household, shall be prosecuted with the utmost Severity of the Law; and all Foreign Bakers and others have free Liberty to bake, vend, and expose to Sale their Household Bread in this City, or Market-places appointed for that Purpose, so that such Bread be made conformable to the Freeman's Affize.

Since last Monday we have not had the least Disturbance from the Populace, every Thing being perfectly quiet, on Account of the Regulation of Bread, and the Bakers baking as usual, the Price of Corn being fallen.

Last Week died Toby Caulfield, Esq; Member of Parliament for the Borough of Tullis, in the County of Roscommon.

L O N D O N.

We are very well assured, that there is no Manner of Foundation for the Report that has been propagated with great Industry for some Time past, in several News-Papers, concerning a *Suspension of Arms*, but on the contrary that all the proper and necessary Measures are taking for pushing on the War with all imaginable Vigour: And it were to be wish'd, that People who really have the Interest of their Country at Heart, would not suffer themselves to be so easily amused and imposed upon, by the most gross and infamous Falshoods, that are daily forged by the vilest and most worthless Tools of a Faction, to create Uneasinesses, to foment Animosities, and to spread Diffentions in the Nation. There is no Reason to doubt of Success in the War. We have a finer Fleet than either our own or any other Nation could ever send to Sea before (that at least is some Merit in the Army) and we shall certainly make a good Use of it. But it is impossible for human Prudence to do every Thing at once; some regard ought to be had in our Reasonings upon these Matters, to *Times and Circumstances*, to the *Seasons of the Year*, the *Nature of Embarkations*, to the *Difficulty* perhaps of getting *Seamen*, to the *Length of Time* that it requires to furnish *Provisions, Stores, Transports, well-disciplin'd and regular Troops*, and a thousand other Things that are necessary for the successful Execution of any Design of Importance: But if we are to give credit to every idle or malicious Tale that we see published in the News-Papers, those Scribblers would make us believe, that it is as easy to conquer Spain and the Indies, as it is for every little, pragmatical, half-witted Fellow, that sets himself up for a Patriot, to talk of it at a Coffee-house.

Letters from the Canaries of the 25th of May N. S. advise, that a Spanish Privateer brought in there a few Days before a Vessel bound from Ireland, one Hays Master; also a Vessel with 200 Quintals of Copper on board, which last he took out of the Harbour of Santa Cruz in Barbary.

A CURE for Low Spirits
FLING but a Stone the Giant

Green on the Spleen. Lord Bacon says, Excess of dreth Putrefaction, maketh the Substance of the solid and compact, and so less apt to be consumed and dated by the Spirits, and the Omission of it breedeth eases of Repletion. Dr. Cheyne says, Without due Exercise the Juices will thicken, the Joints will stiffen, the Nerves will relax, and on these Disorders Crises, tempers and a Crazy Old Age must ensue. And another last Book, Without Exercise Nature will degenerate, which is the Case of many of the Female Sex, and of the in Goals and Monasteries. Dr. Arbuthnot, in his *Medicinal Exercitium*, A due Confluence of the Blood is very useful for Health, and this is acquired chiefly by Exercise.

Hen. Marsh, in Clement's-Inn Passage, Claims really 46 Tremoussers, or Chamber-Horses for Lawyers, and Gentlemen may try one there, and be assured several of them have been bought by Persons of the highest Distinction in the Kingdom; and he has found out a way making them very cheap and useful for Children. A who has one, laid it made her eat and sleep. The Virtue and the Soul's good Fortune. Cowley on the Read Fuller on Exercise.

Note, There's a Tremousser, or Chamber-Horse, in Long Room at Tunbridge.

An Infallible and Instant Cure
For DEAFNESS, THICKNESS of HEARING

PAIN or NOISE in the EARS, &c. by the *Chymical Specifick Drops.*

WHICH infinitely excel all other Medicines ever offer'd to the Publick, or known in the whole World for they directly cure Deafness, be it ever so bad, and the loss of Hearing and Noise in the Ears, almost at once, after all other Means have failed, and without Trouble or least Uneasiness whatever, as many Thousands have experienced. They effectually remove all Pain occasion'd by Cold, the Tympanum or Drum of the Ear, free the auditory Nerve from Obstruction, and remedy all Defects of the Hearing, most in an Infant, causing those to hear exceeding well, who before were in a Manner totally Deaf.

Hundreds who were so very bad, as not able to hear a when close by them, and therefore despaired of being ever relieved, have been quickly and perfectly cured by to their great Joy and Admiration.

In a Word, nothing in Nature can come near them for the cure of Deafness, and almost immediate Cure of DEAFNESS, proceeding from what Cause soever; but the great Esteem and Reputation justly gained for many Years past, have occasion'd (as usual in such Cases) many Counterfeits to come abroad; beware of such Impostitions, these excellent and only true Specificks, being to be had only, by the Author's Appointment, of the women at the two Blue Posts in Haydon-Yard, in the Strand, 1 s. 6 d. a Bottle, with Directions, and no where else.

An Infallible REMEDY
For BROKEN-WINDED HORSES.

WHICH has been published and sold many Years before any Counterfeits in Forms appeared; and highly commended from one to another. The vast Quantities that have been sold, also verify its Efficacy and Virtues, for it not only cures them, after all other Means have failed, but is a Wonder, in a small time, without Operation; by attenuating and opening the Glan'dular Lungs dried up, and all the Passages obstructed by dripping thereon, occasion'd by hard Riding, Cold, &c. causes presently a free Perspiration, renewing its Vigour and Length again, as well as ever.

It immediately cures those Horses only a little troubled with their Wind, as also all continued Coughs, Colds, &c. being excellent in preventing many other Diseases incident unto them, by maintaining, preserving, and continuing a good Breath.

And in a word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been valued from 10 to 30 or 40 Pounds, which by the Broken-winded, could not before be sold for 3 or 4 Pounds.

It is sold at Mr. Sandwell's Toy-Shop at the Corner of Buckler's-Bury in the Poultry, at 4 s. 6 d. per Bottle, with Directions for taking it; and no where else in England.
